### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

**WITHDRAWAL OF FINALITY**

1. The FINALITY of the FINAL REJECTION mailed on 20 January 2011 has been WITHDRAWN. Applicant's amendment filed on 20 May 2011 has been ENTERED.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the fourth paragraph of 35 U.S.C. 112:
3. Subject to the following paragraph, a claim in dependent form shall contain a reference to a claim previously set forth and then specify a further limitation of the subject matter claimed. A claim in dependent form shall be construed to incorporate by reference all the limitations of the claim to which it refers.
4. Claims 11 and 12 are rejected under 35 U.S.C. 112, fourth paragraph.
5. Previous Claim 5 specifies that the tubes are copper tubes. The Specification teaches that copper tubes are not copper-nickel tubes. See Specification at page 11, line 3, for example. Since copper-nickel tubes are not copper tubes, these dependent claims cannot be said to be properly further limiting of previous Claim 5. The claim scope would be considered to outside that encompassed by previous Claim 5.
6. The following is a quotation of the first paragraph of 35 U.S.C. 112:
7. The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
8. Claim 11 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably

convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Regarding Claim 11, the claim requires a copper-nickel tube that is coated with nickel electroplating layer. However, the Specification teaches that the copper-nickel tubes having the breadth of the claimed relative amounts of copper and nickel are to have a copper electroplating layer, not nickel layers. See Specification at page 11, line 1-6. While there is an example of a specific copper nickel alloy tube that is coated with nickel, this example is disparaged, and there is no basis for concluding that the Specification reasonably conveys that applicant possessed the breadth of copper-nickel tubes as claimed in Claim 11 being nickel coated as claimed.

***Allowable Subject Matter***

9. Claims 5-8, 10, and 14-16 are allowed.

***Response to Amendment***

10. In view of applicant's amendments and arguments, the section 112, second paragraph rejection and the section 102/103 rejection over McRae of the Office Action mailed on 20 January 2011 are overcome and therefore withdrawn.

***Conclusion***
